design R&S Zalf e Roberto Gobbo

Sistemi di arredo che diventano strutture architettoniche fruibili in tutte le aree della casa secondo nuovi schemi abitativi - il design che genera spazio. Elementi di contenimento spesso multifunzionali, sempre più dinamici e ridotti, per rispondere alle esigenze dell'abitare contemporaneo. *Decor systems become architectural structures that can be used throughout the house, as new home design dictates - space-generating design. Storage elements are often multi-purpose, ever more dynamic and compact to meet the needs of a contemporary lifestyle.*

Concetti progettuali *Project concepts*

Alla base di ogni creazione Zalf ci sono tre pilastri progettuali che tracciano il percorso verso un design unico: Trasversalità, Spazialità e Versatilità.

There are three design pillars that trace the path to unique design behind every Zalf creation: Transversal, Spacious, Versatile.

Project concepts

Trasversalità *Transversal*

Sistemi living, armadi e cabine armadio, combinabili e compatibili per finiture e dimensionamento, in profondità ed in altezza.
Living room systems as well as walk-in closets and wardrobes, all of which can be combined and are compatible in terms of finishes and sizes, both in depth and height.

Risolvere esigenze diversificate legate alle caratteristiche fisiche dello spazio abitativo attraverso la trasversalità dei sistemi.
Satisfying various requirements linked to the physical characteristics of the spaces available in a home, thanks to the cross-functionality of systems.

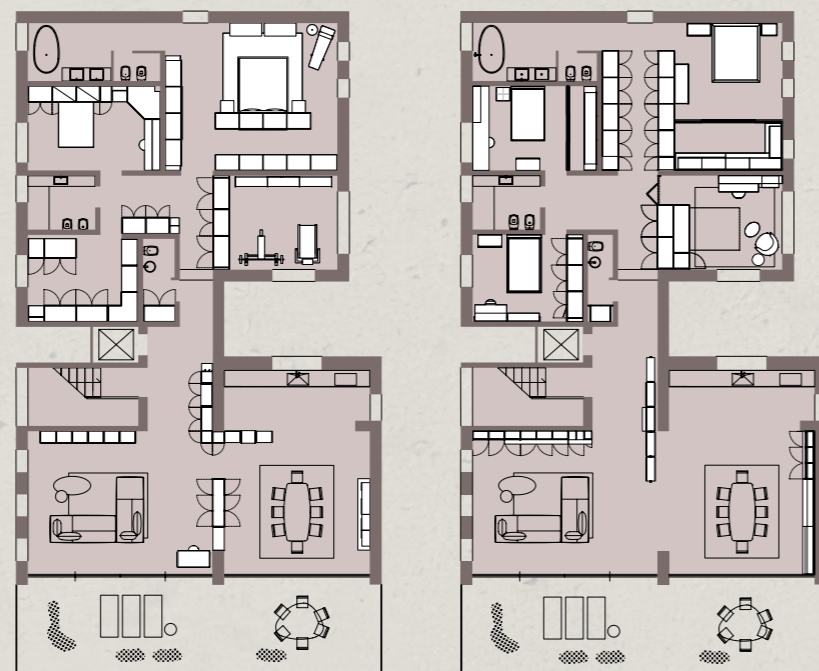

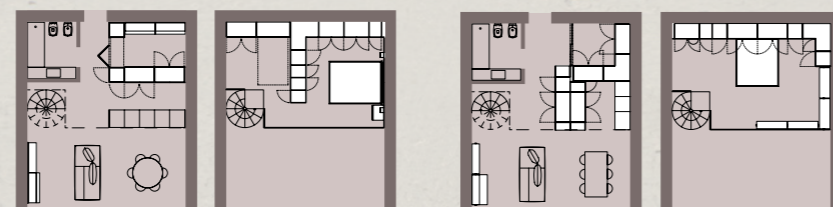

Project concepts

Spazialità *Spacious*

Articolare lo spazio generando soluzioni che contengono le funzioni abitative, in modo flessibile e senza la necessità di partiture verticali, con sistemi retrofiniti, accostabili schiena con schiena per tutti i moduli e funzioni, su misura nelle tre dimensioni.

Organising spaces by flexibly generating solutions that contain the functions typical of a home, with no need for vertical partitions, using systems that are finished on the rear or can be fitted back-to-back for all modules and functions and that are available made-to-measure in all three dimensions.

Nello stesso open space, dalle dimensioni contenute di 70 mq, e nella stessa unità residenziale, dalle dimensioni importanti, quattro progetti d'arredo che articolano lo spazio secondo le proprie esigenze ed il proprio gusto. *Four furnishing projects organise spaces to suit the requirements and tastes of users. They are located in the same large residential unit and in the same 70 square metre space.*

Project concepts

Versatilità *Versatile*

Dare risposte abitative alle famiglie tradizionali, allargate, multigenerazionali alle persone singole e ad altre forme di convivenza. *Offering solutions for the home to traditional, extended and multi-generational families, single people and other types of cohabitation.*

Rispondere a più tipologie abitative prestabilite o trasformative, in quest'ultimo caso consentendo di progettare diverse modalità di utilizzo degli spazi. Dal living allo studio, dalla camera principale alla cabina guardaroba, dagli spazi di connessione ai locali di servizio, differenziando la qualità estetica delle soluzioni progettuali e compiendo sempre scelte giuste, anche nel prezzo.

Meeting the requirements of various types of fixed or transformative homes, in the latter case offering the possibility of planning different ways of using spaces. From the living room to the study, from the master bedroom to the walk-in closet, from corridors to utility rooms, this system lets you differentiate the aesthetic quality of projects so that the right choice can be made at all times.
